

ESE Deliverable 1

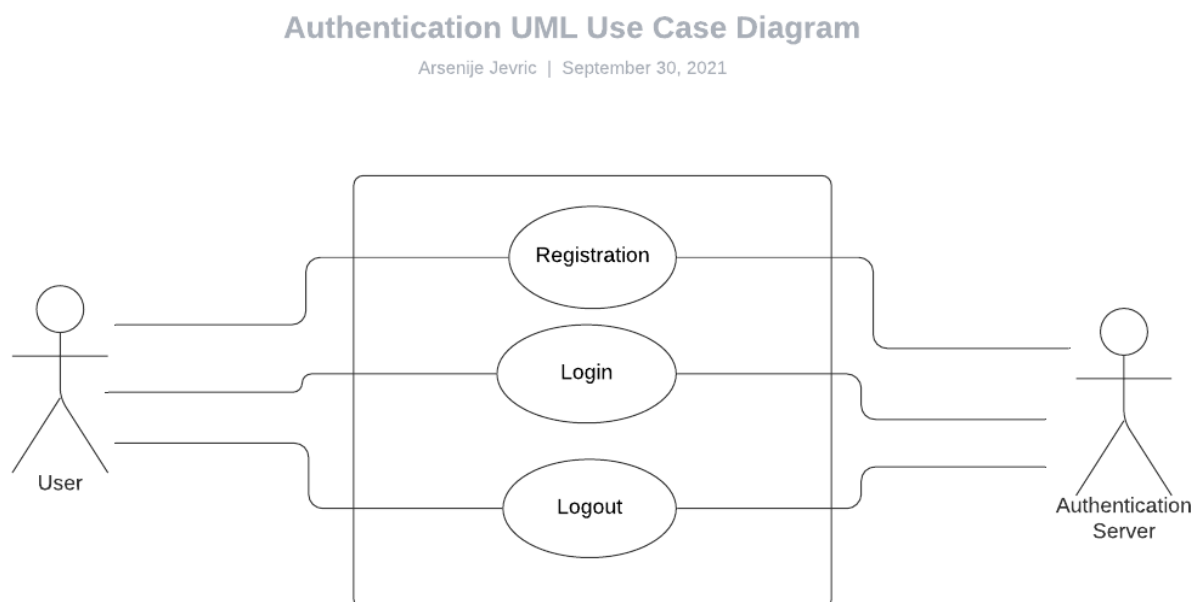

User Stories

1. As a user I want to post content so that it can be seen by other users.
2. As a user I want to like a post so that the poster can see that I like his post.
3. As a user I want to post a comment so that the poster can see my opinion about his post.
4. As a moderator I want to be able to delete posts that go against the rules.
5. As a user I want to login as fast as possible so that it does not take me more than 3s.
6. As a user I want to be sure that my data is handled safely and confidentially, by being able to see what kind of data is being stored about me.
7. As a user I always stay logged in when I close the tab of the webpage so that I do not have to log in again when I didn't log out.
8. As a user I want the website to be accessible from all modern browsers (at least Chrome, Firefox, Opera, Safari)

Functional: 1, 2, 3, 4, 7

Non-Functional: 5, 6, 8

Authentication UML Use Case Diagram

Use Case Descriptions:

- Registration: It saves the login credentials of a user on the server for later login.
- Login: Allows the user to login into his previously created account.
- Logout: Allows the user to logout of his previously created account.
